Spend your time wisely

Yearn Vaults are a way to use technology to help manage your holdings. You choose the strategy that best suits you, deposit into that vault, and Yearn tech helps maximize yield through shifting capital, auto-compounding, and rebalancing.

Custody, and responsibility, for your holdings remains yours.

You can withdraw anytime.

Overview

APY **0.35%**

Total assets **\$ 55,749,475**

Type **Governance Tokens**

Website **<https://yearn.finance>**

Yearn Finance is a suite of products in Decentralized Finance (DeFi) that provides yield aggregation, a decentralized money market, and several other DeFi building blocks on the Ethereum blockchain. The protocol is maintained by various independent developers and is governed by YFI holders.

Strategies

Aave Flashloan Folding

Supplies and borrows YFI on [Aave](#) simultaneously to earn stkAAVE. Earned tokens are harvested, sold for more YFI which is deposited back into the strategy. Flashloans are used to obtain additional YFI from [dYdX](#) to boost the APY.
